

# Engagement & Communications

Dr Kate Baker Director of Agile Rabbit Senior Research Fellow, Centre for Water Systems, University of Exeter

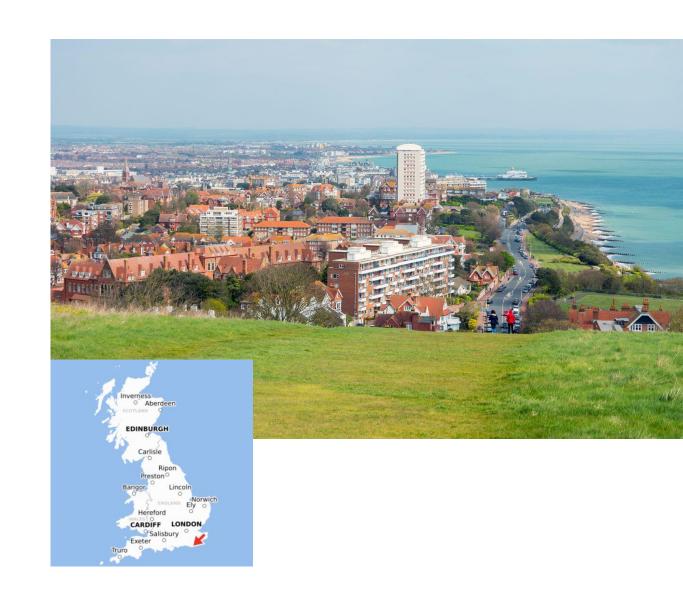

INTERACTIONS	champion			
	one-to-many	crowdsourced	cooperative	community-led
COMMUNITY MANAGEMENT GOAL	inform and inspire	obtain feedback, skills, or information	gather resources, including knowledge, to achieve a common goal	create something new together
COMMUNITY ACTIVITIES	read watch listen	comment vote / like tag	discussion knowledge exchange production	integration and synthesis multi-directional learning co-production
POWER BALANCE	organization as expert	organization as convenor	scaffolded cooperation	mutual sharing and learning; (near) equity
SLOGAN	here's something interesting	give us some feedback	how can we work together?	what shall we do next?

The Center for Scientific Collaboration and Community Engagement (CSCCE)

Investigating how rain, river and wastewater move through Eastbourne and southern Wealden, to help reduce the impact of flooding. Using smart technology to monitor water in real time

Funded by DEFRA's Flood & Coastal Resilience Innovation Programme (FCRIP)

### Communication

Raise awareness of flood risk and improve people's understanding of how water moves through the catchment

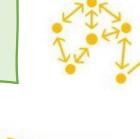

#### Engagement

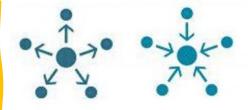

Ensure local stakeholders are at the heart of the decision making and learning throughout the project. We want to align, partner, and support local initiatives

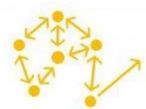

Create a water environment that is in harmony with its users by supporting collaboration between local government, Environment Agency, local business, leisure users, and communities

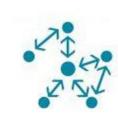

### **Public engagement with Research**

Use local knowledge to guide the research and management of the water bodies

## Asset Based Community Development (ABCD)

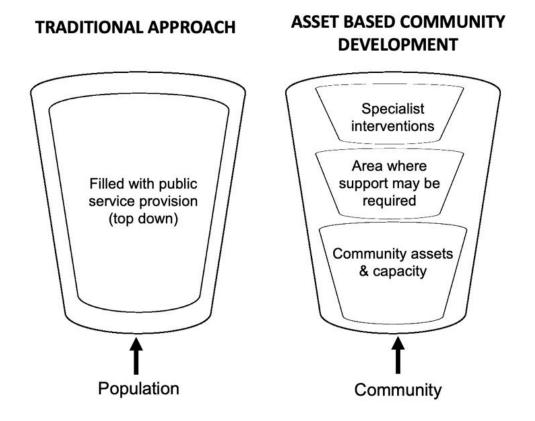

**1: Listening & early Engagement:** Listening and collect stories (e.g. community radio)

**2: Connectors**: Working with community leaders and local organisations

**3: Mapping:** Map the skills, capacities, and assets (e.g. with an interactive online map)

4: Support community to lead the vision and plan (e.g. community fund, events)

5: Stepping back

## Early engagement using community radio

Community Radio was used as a method to explore the FCRIP Blue Heart project area, meet local residents and business owners, and familiarise ourselves with existing networks and relationships.

This information created the foundation for the engagement strategy

The story of Blue Heart is told by the community. Listen here

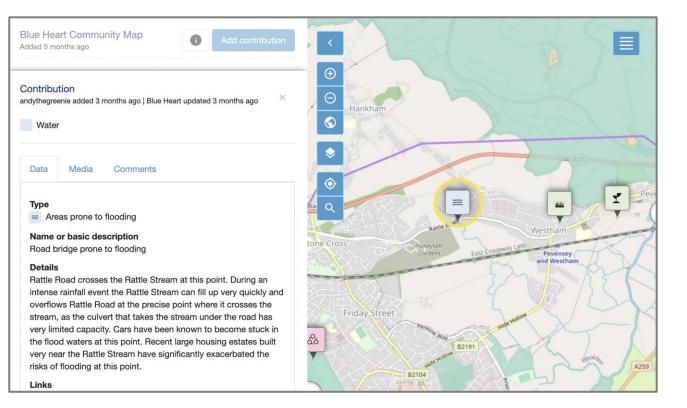

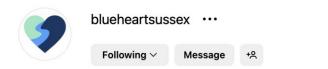

## Blue Heart Community Fund

The people of Eastbourne and southern Wealden were invited to suggest activities that will help:

- Manage flooding or drought
- Reduce the impact of climate change
- Increase sustainability, or protect the natural environment.

The Community Fund is supporting six projects this year, with a total payout of £22,300.

#### Blue Heart

Investigating how water works in Eastbourne and southern Wealden, to help reduce the impact of flooding in the future. Comms by @agilerabbitevents & www.blueheart.org.uk

Followed by ntgates and kimnetcro

Eastbourne Events Out and a... Pevensey
