Defining Social Value

Example definition:

UK Green Building Council's (UKGBC) definition:

“social value is created when buildings, places and infrastructure support, and enhance the quality of life of the people who live, work, play and learn there.”

UKGBC, 2021

Social Value – the Umbrella Term

Social value is a *concept* that encapsulates...

- Social Resilience
 - Social Impact
 - Social Capital
 - ESG
-
- Attributes of Social Value are project and stakeholder specific
-
- Clear relationship between social value and project Legacy
